

A key to your personal and professional development starts with self-awareness. Through the use of the Insights Discovery Personal Profile, you and your team can gain meaningful “Insights” to help guide and empower the ability to take effective action and to produce results.

The Insights Discovery methodology uses a simple and memorable four-color model to help people understand their style, their strengths and the value they bring to the team. We call these the color energies, and it's the unique mix of **Fiery Red**, **Sunshine Yellow**, **Earth Green** and **Cool Blue** energies, which determines how and why people behave the way they do.
