# Insights® Personal Effectiveness Program

- I am looking for an inspiring personal development experience.
- How can I improve the interpersonal dynamics of my people?
- How can I help individuals understand their personal impact?

Insights Personal Effectiveness is our core program - an introduction to the Insights Discovery System and the Insights Discovery Personal Profile that is fun and interactive, and which leaves participants with a language and framework for understanding themselves and others which they can put into practice immediately.

The program explores a simple model:

- Understand self
- Understand others
- Learn how to adapt to others and connect more effectively for improved relationships and results

Using each participant's Insights Discovery Personal Profile, the program enables everyone to understand their own personality better, to identify other types of personalities and adapt to different communication needs. The use of four color energies: Fiery Red, Sunshine Yellow, Earth Green and Cool Blue creates a memorable common language and framework on which participants can base their interactions in the future.

Insights Personal Effectiveness Programs are tailored to customer requirements, and can range from 90-minute executive briefings to modular sessions over a period of weeks and months.
